DUSTIN PERRERA

Software Developer
Parañaque City | +63 948 537 8865 | dustinperrera10@gmail.com

WORK EXPERIENCE

Halton Group (Solaire) | Electro-Mechanical Technician **2024 - Present**

- Perform preventive maintenance and repairs on commercial ventilation and advanced kitchen exhaust systems at the Solaire Engineering Facility.
- Diagnose electro-mechanical faults in airflow controls and filtration units to support continuous operation.
- Follow engineering safety standards and operational protocols.

PPCRV | Data Encoder & Analyst **2022 - 2023**

- Encoded election returns with 100% accuracy, verifying figures against Vote Counting Machine (VCM) logs.
- Helped compile real-time data reports for GMA7 election coverage under strict deadlines.

PROJECTS

Breath Easy Solution | Freelance Project

- Built a business website with a booking system and booking tracking.
- Added automated email updates and email verification in the booking form.

DCSA Mini LMS | Mobile Application

- Built an APK with separate student and teacher logins.
- Added quizzes, lesson uploads, and a grade viewing feature.

Academic Portfolio | Full Stack Web Developer **2024 - Present**

Student Enrollment Portal | PHP, MySQL

- Built a student enrollment portal with a Certificate of Registration (COR) generator and a simulated payment gateway to validate transactions.

Inventory & Payroll System

- Built a retail inventory and payroll system with stock tracking and automated salary computation logic.

EDUCATION

Datamex College of Saint Adeline - Parañaque **Present**

Bachelor of Science in Information Technology
